

MeckMIN

STATEMENT FROM THE MeckMIN BOARD

November 18, 2025

"Inspired by the highest values and core virtues of our rich faith traditions to create an inclusive community that respects the dignity of every person, MeckMIN *values the diversity of our community* - enriching our lives as we learn from one another's racial, ethnic, cultural, and faith understandings.

MeckMIN is a longstanding network of support across Mecklenburg County, committed through our member groups to uplift the rights and dignity of all within our community. MeckMIN's core vision and values compel us to speak words of solidarity and support to those who currently face fear, uncertainty, persecution and isolation as a result of federal immigration enforcement activity in Charlotte and the surrounding communities. We should demand humanity, dignity and accountability from everyone in our communities, especially those we empower to enforce our laws. The scale and manner of recent investigations and arrests does not meet that standard and is harming our neighbors and our community.

MeckMIN will continue to lift up the work of organizations working for the safety and well-being of all people, supporting actions that allow us all to live out the vision of an interconnected community in which all may thrive in dignity and respect."
